****Corrected for location****

CURB AND GUTTER REPLACEMENT AT KEITH/CRAWFORD**/MILLER TRIANGLE**

On Thursday, October 28, 2014, Keyes Construction will begin work to replace the curb and gutter that surrounds the landscape island bounded by Miller Avenue, Keith Street and Crawford Street. During the demolition and construction, heavy equipment will be used, which will be in the roadway of these three streets at various times. Flagmen will be in the area to help keep traffic clear from equipment at those times. No lane closures are planned for the project, which will take one week to complete. The project is funded as part of the Community Development Block Grant (CDBG) program in conjunction with the Parks and Recreation Department, who maintains this landscape island in the Miller Historic District.

Questions regarding this project may be directed to Mr. James Briggs, City of Norman Park Planner, at (405) 366-5480 or James.Briggs@NormanOK.gov.
